Friends

OF CARENET

DEAR FRIENDS OF CARENET:

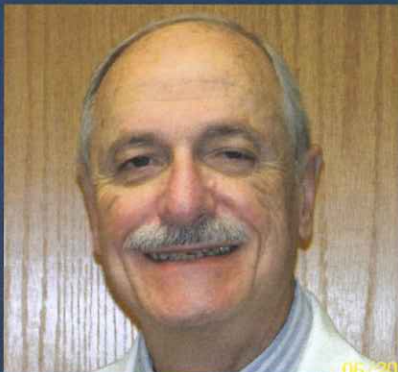

As we celebrate our 10th year (2013), Toledo/Lucas County CareNet has made tremendous strides in meeting the medical needs of our uninsured members who have household incomes below 200% of the federal poverty guidelines.

2012 resulted in a record breaking number of members, as more than 8,400 individuals were enrolled in CareNet—an increase of almost 1,000 people from the year before. Between 2003 and 2012, members have received over 445,000 services valued conservatively at \$145 million based on Medicaid reimbursement rates. CareNet's ability to serve Lucas County's uninsured would not be possible without the support of our funders and care providers—especially the incredible generosity of our volunteer physicians and hospital partners.

Recently, CareNet conducted a health assessment of our members. The results show that 82% of CareNet members had a routine physical exam in the past year, 69% of women over the age of 40 had received a mammogram in the past two years, and 94% of women had a Pap Test. The report also indicates that we have some work to do to help CareNet members lead healthy lives and have enough food for their families.

While the impact of healthcare reform in Ohio is still unclear, one thing remains – the need to provide access to coordinated healthcare services for our neighbors who have low incomes and are uninsured. I ask that you continue to support CareNet, whether it's through your charitable contribution, providing medical care, or volunteering in another capacity.

Yours in Good Health,

Dr. Arthur Mancini, MD
Chairman of the Board
Toledo/Lucas County CareNet &
Member of the Voluntary Specialty
Network, Urology

A DECADE OF CARING

COMMENTARY

CareNet: A decade of caring

BY JAN RUMA

Our nation is continuing to carry out the Affordable Care Act, and debating how best to provide basic healthcare coverage to citizens. In the meantime, Toledo/Lucas County CareNet is celebrating its 10th anniversary of increasing local access to medical care.

Since it began on Jan. 15, 2003, CareNet has connected 25,000 low-income, uninsured residents of Lucas County with the care they need but cannot afford. These patients have benefited from more than 430,000 service deliveries: primary, emergency, outpatient, inpatient, and specialty care; prescription medication, and transportation.

The value of the services provided by our partners to CareNet members at no cost, or on a sliding fee scale, is conservatively estimated at \$145 million.

In 2002, then Toledo Mayor Jack Ford asked Mercy and ProMedica to develop and participate in a program that would address the growing problem of local residents who lacked health insurance. These providers created CareNet to increase access to coordinated healthcare services for people who were falling through the cracks of existing coverage.

Today, CareNet partners with a broad range of providers that agree to make healthcare services available to enrolled residents. CareNet has won local, state, and national awards by demonstrating the impact individuals and organizations can make when they work together to meet community needs.

CareNet's board of directors includes representatives of our primary partners: ProMedica, Mercy, the City of Toledo, the Lucas County Board of Commissioners, United Way of Greater Toledo, the University of Toledo Medical Center, the Academy of Medicine of Toledo and Lucas County, the Neighborhood Health Association, the Dental Center of Northwest Ohio, and the Toledo-Lucas County Health Department.

In addition, 220 physicians volunteer their time to treat CareNet members, whether they have a suspicious lump, heart disease, diabetes, or another acute or chronic condition that requires expert care. The Toledo Area Regional Transportation Authority provides transportation to medical appointments when it's needed.

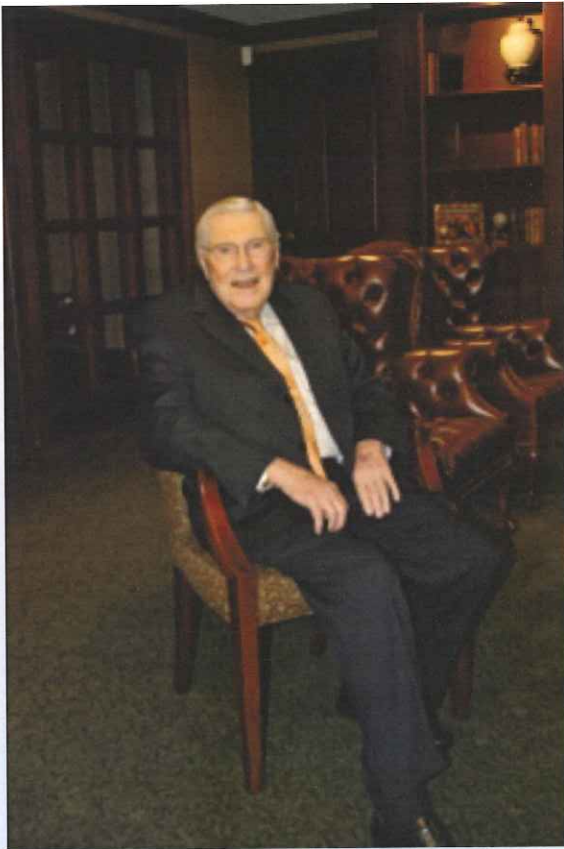

Many CareNet members are considered "working poor." Their household incomes are at or below the federal poverty line of \$23,050 a year for a family of four. More than a third of CareNet members work at part-time, low-paying jobs at local stores, cleaning services, or restaurants. Many are unemployed for the first time in their lives because of Toledo's difficult economy.

But no matter why they are uninsured, CareNet members have a doctor to turn to. Because CareNet members get the preventive care they need, they require fewer emergency department visits and hospital inpatient stays. Most important, their health and well-being improve.

The demand for medical services is greater than it was a decade ago. The healthcare environment is challenging and uncertain. But CareNet will continue to provide a forum for healthcare providers to work together, one patient at a time.

Jan Ruma is executive director of Toledo/Lucas County CareNet.

A SPECIAL TRIBUTE

A Special Tribute... Dr. John Newton

Many people know **Dr. John Newton**...known to many as Jack. Dr. Newton graciously and passionately served as CareNet's Physician Liaison and on the CareNet Board of Directors since CareNet's inception. Dr. Newton announced his "retirement" at the final Board meeting of 2012. CareNet has been fortunate to benefit from Dr. Newton's leadership and service that contributed greatly to the creation and success of CareNet.

Recently named a 2012 Healthcare Hero, Dr. Newton has contributed countless volunteer hours within our community with a focus on the medically underserved populations. He has been dedicated to helping individuals with chemical addictions, mental health diagnoses, and those without health insurance coverage. He has been a driving force in our community and within the State of Ohio by serving on public health and mental health boards for over 42 years. He has tirelessly led many community initiatives including the first public smoking ban in our area.

Dr. Newton's passion has not only impacted the health of his patients, but the health of the community in which he lives. The impact of his work will be felt for many years and CareNet wishes him well as he continues to serve on the Ohio Association of Free Clinics Board of Directors and the CareNet Leadership Group... some retirement!

Toledo/Lucas County CareNet 2013 Nonprofit Excellence Winner (Small Organization)

Toledo/Lucas County CareNet is proud to receive the 2013 Nonprofit Excellence Award for a Small Organization. The Northwest Ohio Innovation & Excellence Awards are sponsored by The Toledo Community Foundation and The Blade.

CareNet demonstrates that physicians don't have to go across the globe to do medical mission work. CareNet is a shining example of physicians working in partnership to address health disparities in our own community.

Pictured left to right accepting the award on behalf of all of CareNet's volunteer physicians and healthcare organizations are: (left to right): Dorothy Thum, RSM, Mercy; Barb Petee, ProMedica; Julie Grasson, CareNet; Jan Ruma, CareNet; Lindy Cree, The Dental Center of Northwest Ohio; Karen Herren, CareNet Volunteer; and Lee Wealton, The Academy of Medicine of Toledo/Lucas County.

Pictured left at the Friends of CareNet event are just a few of the key physicians that are members of CareNet's Voluntary Specialty Network (from left to right): Suresh Ramnath, MD; Jim Sander, MD; Oliver Jenkins, MD; and Greg Rosenthal, MD.

"You really have touched our lives by assisting us in the process of my mom's health. You truly save lives". . .
